INTRODUCTION AND BACKGROUND

June 30, 2007

INTRODUCTION

The purpose of our contract with the State of Montana and Montana State Lottery was to conduct a financial-compliance audit of the Montana State Lottery's financial statements and issue an opinion on such. The scope of our services is defined in our contract with the Office of the Legislative Auditor, dated June 7, 2007, and as supplemented by certain requirements included in the bidder information.

As a result of our audit, we have also issued a report on compliance and on internal control structure over financial reporting based on our audit of the financial statements performed in accordance with *Government Auditing Standards*.

BACKGROUND

The Montana State Lottery was created in November 1986 by a referendum vote of the people of Montana. The "Montana State Lottery Act of 1985" appears as Chapter 669 of the Montana Session Laws and Title 23, Chapter 7, of the Montana Code Annotated. The general purpose is to allow lottery games in which players purchase from the State, through the administration of the Montana State Lottery, a chance to win a prize. Disposition of revenue is a minimum of 45 percent for prizes and a maximum of 10 percent for commission to sales agents. The Montana State Lottery is required to transfer its net revenue to the Montana State General Fund.

INDEPENDENT AUDITOR'S REPORT

To the Commissioners
Montana State Lottery
Helena, Montana

We have audited the accompanying financial statements of the Montana State Lottery (the Lottery), an enterprise fund of the State of Montana, as of and for the years ended June 30, 2007 and 2006, as listed in the table of contents. These financial statements are the responsibility of the Lottery's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

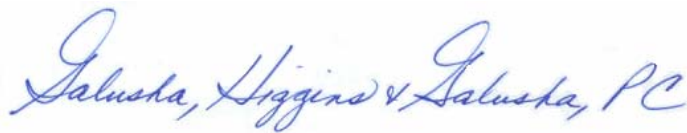

As discussed in Note A, the financial statements present only the Lottery and are not intended to present the financial position of the State of Montana and the results of its operations and cash flows of its proprietary fund types in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Lottery, an enterprise fund of the State of Montana, as of June 30, 2007 and 2006, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated November 9, 2007 on our consideration of the Lottery's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

To the Commissioners
Montana State Lottery

The Management's Discussion and Analysis on pages 6 through 9 are not a required part of the basic financial statements but are supplementary information required by the accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following *Management Discussion and Analysis* of the Montana State Lottery's (Lottery) activities and financial performance provides the reader with an introduction to and overview of the financial statements for the fiscal years ended June 30, 2007 and 2006. We encourage readers to consider this information in conjunction with the financial statements, which directly follow.

FISCAL YEAR 2007 HIGHLIGHTS

The Montana Lottery completed another successful fiscal year with the highest level of sales ever reported for both scratch and online products. With a new focus on scratch products including a family of games concept with \$1, \$2, \$5 and \$10 price points, the Lottery saw a 10% increase in overall scratch sales. While the Lottery did not experience significantly high Powerball jackpots, sales of online products including Hot Lotto, Wild Card and Montana Cash exceeded expectations. Hot Lotto and Wild Card sales were up 41% and 31% respectively over fiscal year 2006 sales.

In fiscal 2007, the Lottery's revenues reached a record new high of \$41.5 million. This resulted in a transfer to the General Fund of \$11.4 million, the largest in the history of the Lottery.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Lottery is classified as a special-purpose government fund engaged only in business-type activities. Accordingly, the Lottery operates in much the same manner as commercial enterprises using the full accrual method of accounting in accordance with accounting principles generally accepted in the United States of America. The basic financial statements consist of two components:

- 1) Three Fund Financial Statements: a *Statement of Fund Net Assets*, a *Statement of Revenues, Expenses, and Changes in Fund Net Assets*, and a *Statement of Cash Flows*; and
- 2) Notes to the Financial Statements.

The *Statement of Fund Net Assets* provides information about the nature and amounts included in both short-term and long-term assets and liabilities at the end of the year. Long-term fixed assets are capitalized and depreciated over their useful lives. Because the Lottery is required to transfer all "profits," or the excess of assets over liabilities, to the State's General Fund, its "net assets" will always be zero.

The *Statement of Revenues, Expenses, and Changes in Fund Net Assets* includes all of the current years' revenues and expenses. Revenues are recognized when earned and become measurable, not when they are received. Expenses are recognized when incurred, not when paid. This statement measures the success of the Lottery's operations over the past two years and details the total amount transferred to the General Fund.

The final statement is the *Statement of Cash Flows*. The primary purpose is to provide information about the cash receipts and payments during the reporting period. The statement also reports changes in cash resulting from operations, investing and financial activities, and provides answers to questions such as where cash came from and what cash was used for.

MANAGEMENT'S DISCUSSION AND ANALYSIS

NET ASSETS

The table below presents a summary of the Lottery's *Statement of Fund Net Assets*.

Condensed Statements of Fund Net Assets as of June 30

	2007	2006	Dollar Change	Percentage Change
Current Assets	\$4,863,257	\$4,724,396	\$ 138,861	2.9%
Capital Assets net of depreciation	139,127	125,608	13,519	10.8%
Other Assets	1,509,968	1,394,278	115,690	8.3%
Total Assets	\$6,512,352	\$6,244,282	\$ 268,070	4.3%
Current Liabilities	\$5,344,334	\$4,922,739	\$ 421,595	8.6%
Long-Term Liabilities	1,168,018	1,321,543	(153,525)	-11.6%
Total Liabilities	\$6,512,352	\$6,244,282	\$ 268,070	4.3%
Invested in Capital Assets, Net of Related Debt	\$ 139,127	\$ 125,608	\$ 13,519	10.8%
Unrestricted Net Assets	(139,127)	(125,608)	(13,519)	10.8%
TOTAL FUND NET ASSETS	\$ 0	\$ 0	\$ 0	0%

The change in Current Assets is due to an increase in receivables and an increase in inventories. The increase in receivables is a result of an increase in games with higher price points and an increase in the time frame for settlement for these higher price-point games. Two other increases in receivables are a result of a receivable from Multi State Lottery Association that did not occur in fiscal year 2006 and a receivable for Short Term Investment Pool interest since June 30, 2007 was on a Saturday.

The change in Other Assets is due to an increase of approximately \$115,000 in the Multi-State Lottery reserve fund.

The major change in Current Liabilities is an increase in the amount due to the General Fund as a result of operations and an increase in accounts payable due to the timing of the receipt of bills. The decrease in Long-Term Liabilities is a result of a decrease in the MUSL prize liability.

The category, *Invested in Capital Assets, Net of Related Debt*, consists of capital assets less accumulated depreciation, amortization and the outstanding balance on the debt related to the purchase of these assets, if any. Since the Lottery is required to transfer the total results of operations to the General Fund, the Net Assets should always be \$ - 0 - and the Unrestricted category is just a balancing figure. This figure can be used to measure asset liquidity and demonstrates where and if the Lottery's funds are obligated.

MANAGEMENT'S DISCUSSION AND ANALYSIS

OPERATIONS AND CHANGES IN NET ASSETS

The table below presents a summary of the Lottery's Operations for the last two years.

Condensed Statements of Revenues, Expenses, & Changes in Fund Net Assets For the Years Ended June 30

	2007	2006	Dollar Change	Percentage Change
Total Operating Revenues	\$41,568,729	\$39,928,912	\$1,639,817	4.1%
Total Direct Game Costs	27,277,893	27,009,013	268,880	1.0%
Net Operating Revenue	\$14,290,836	\$12,919,899	\$1,370,937	10.6%
Total Operating Expense	3,135,347	4,009,362	(874,015)	-21.8%
Net Operating Income	\$11,155,489	\$ 8,910,537	\$2,244,952	25.2%
Total Non-operating Revenues(Expenses)	264,753	199,918	64,835	32.4%
Income Before Transfers	\$11,420,242	\$ 9,110,455	\$2,309,787	25.4%
Transfer to General Fund	11,420,242	9,110,455	2,309,787	25.4%
CHANGE IN NET ASSETS	\$ 0	\$ 0	\$ 0	0%

Montana Cash, Wild Card, Scratch tickets and Qwik Tix all experienced modest increases in sales, while Powerball decreased slightly. Direct Game Costs, which include prizes, vendor fees, retailer commissions, and scratch ticket printing, are directly related to sales and therefore, also show an overall increase with the exception of vendor fees which decreased as a result of the new contract with Intralot.

Total Operating Expenses decreased 21%. Individual expense categories varied somewhat with both increases and decreases. Specific categories with changes of note were Depreciation and Amortization and Multi-State Lottery Association dues.

The income from Non-Operating activities increased from the previous year. This category includes interest received from investments and gains or losses on the sale of non-current assets. The interest received on investments increased by approximately \$67 thousand and changes due to the sale of non-current assets was negligible.

The increase in sales and decrease in operating expenses resulted in the Lottery transferring over \$11.4 million to the General Fund.

Continued

MANAGEMENT'S DISCUSSION AND ANALYSIS

CAPITAL ASSETS and DEBT ADMINISTRATION

The Lottery follows the State's policy of capitalizing long-term assets with an historical value of \$5,000 or more. In fiscal year 2007, the Lottery's capital assets were divided into two categories: 1) a fleet of vehicles used by the sales staff, and 2) office or computer equipment

Capital assets are depreciated using the straight-line method over the appropriate estimated useful life, ranging from three to seven years.

In fiscal year 2007, the Lottery purchased two replacement vehicles and a trailer for \$44,624 and a color printer for \$5,490.

The Lottery currently has no debt-related commitments.

LOOKING AHEAD

The Lottery's goal is to maximize revenue for the State's programs while maintaining the public trust in lottery gaming. This requires offering games that Lottery players want to play, providing convenient locations for the purchase of tickets, and controlling operating expenses.

The Lottery begins new scratch games on a regular basis. In fiscal year 2007, 45 games featuring different graphics, play styles, and prizes levels were placed at our retailer sales locations, including a new \$10 game, *Lucky Times 10*, designed to commemorate the Montana Lottery's 20th Anniversary on June 24. The Lottery estimated that 40 new scratch games will be introduced in fiscal year 2008. We plan to continue building scratch sales through innovative game themes, higher price points, and product advertising.

The Lottery will continue to look for opportunities to meet the expectations of our players for new and interesting games. On October 1, 2007, we will introduce a limited-lifetime game, called *Montana Millionaire*. This game will sell 150,000 tickets through the Lottery terminal. During the first two months of sales, four \$5,000 prizes will be given away. The Grand Prize drawing, which will be held on December 31, 2007, will give one \$1 million prize, five \$100,000 prizes, and five \$10,000 prizes. We anticipate additional revenue to the State of approximately \$900,000. We also will continue our efforts to increase the number of retail outlets throughout the state with new terminal placements, and with emphasis on Powerball's Power Play option and some Wild Card advertising.

Exceptional increases in lotto revenue are usually the result of higher jackpots; however, such jackpots cannot be predicted nor depended upon to occur at any specific time. Therefore, omitting the possibility of a record jackpot, the Lottery projects that the transfer to the General Fund in fiscal year 2008 will be approximately \$12 Million.

CONTACTING THE LOTTERY'S FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of the Lottery's finances for all of Montana's citizens, taxpayers, players and creditors, and to report on the Lottery's accountability for its funds. Questions concerning any of the information provided in this report or requests for additional information should be addressed to: Montana Lottery, 2525 N. Montana Avenue, Helena, MT 59601.

The accompanying notes are an integral part of these financial statements.

Montana State Lottery

NOTES TO THE FINANCIAL STATEMENTS

June 30, 2007 and 2006

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization - The Montana State Lottery (hereafter referred to as the Lottery) was created in November 1986 by a referendum vote of the people of Montana.

Section 23-7-101, Montana Code Annotated (MCA) establishes the provision of the code under which the Lottery operates. The Lottery is overseen by a five-member commission consisting of Montana residents appointed by the Governor. The Commission, by law, has the power to operate a state lottery, determine the type and forms of lottery games, set ticket prices, determine the number and size of prizes, conduct lottery drawings, enter into agreements to offer lottery games with other states, and prepare financial reports. The Lottery is attached to the Department of Administration for administrative purposes.

Disposition of revenue is a minimum of 45 percent for prizes and a maximum of 10 percent for commission to sales agents. The remaining revenues, less expenses, are transferred to the Montana State General Fund.

Reporting Entity - The Lottery is included in the State of Montana's financial statements as an enterprise fund. In accordance with governmental accounting and financial reporting standards, there are no component units to be included within the Lottery's financial statements as a reporting agency.

Basis of Accounting - The Lottery utilizes the accrual basis of accounting and is classified as an enterprise fund of the governmental proprietary fund type. Enterprise funds account for operations similar to private business enterprises where the intent of the Legislature is that costs are to be financed or recovered primarily through user charges, or where the Legislature has decided that periodic determination of revenue earned, expenses incurred or net income is appropriate.

Revenue Recognition - Sales of scratch lottery tickets are made to licensed retailers who market the tickets to the public on a commission basis. Revenue is recognized when tickets are activated by retailers. Tickets activated, but not sold by retailers, may be returned for credit. Sales are reduced for estimated ticket returns.

Sales of terminal issued tickets, Powerball, Wild Card, Hot Lotto, Qwik Tix and Montana Cash, are made through licensed retailers who market the tickets on a commission basis using computerized terminals. Revenue is recognized on drawing dates for Powerball, Wild Card, Hot Lotto and Montana Cash. Tickets sold in advance of future drawing dates are recorded as deferred revenue until the ticket becomes valid for a drawing. Qwik Tix revenue is recognized at the time of the sale by the retailer through the terminal.

Cash and Cash Equivalents - Cash and cash equivalents consist of interest-bearing deposits with the Montana Board of Investments short-term investments pool, cash deposited with banks and cash on deposit with the Montana State Treasurer that is part of the State's pooled cash and is not separately identifiable as to specific types of securities. These funds are highly liquid and may be drawn on daily.

Continued

Montana State Lottery

NOTES TO THE FINANCIAL STATEMENTS

June 30, 2007 and 2006

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Allowance for Uncollectible Accounts - The Lottery uses the allowance method to account for uncollectible receivables. The allowance is based on management's estimate of possible bad debts.

Advertising Costs - Advertising costs are expensed as incurred.

Allowance for Returned Tickets - The Lottery's policy is to accept any unplayed scratch ticket from a retailer for credit without regard to when the ticket or pack of tickets was activated. Therefore, an allowance to recognize the possibility of returns is calculated at the end of each fiscal year.

Inventory - Inventory consists of tickets and supplies. Ticket inventory includes scratch lottery tickets that are carried at cost using the specific identification method. Tickets are charged to cost of sales when activated. Unsold tickets are charged to cost of sales upon the end or cancellation of the related game. Supply inventory is carried at cost and expensed as used.

Prizes - Prize expense is recognized based on a predetermined prize structure for each scratch ticket and terminal game. Free tickets, when used as part of a game's prize structure, are recorded as a reduction in revenue and not as prize expense.

Unclaimed Prizes - Prizes for Powerball, Wild Card, Hot Lotto, and Montana Cash must be claimed within six months after the appropriate draw date. Prizes for Qwik Tix must be claimed within six months of the sales date. Prizes for scratch games must be claimed within six months of the announced end of each game. The unclaimed prize amounts are taken as a reduction in the Lottery Prizes Payable liability and the Prize Expense and are transferred to the State of Montana General Fund as a portion of the quarterly transfer. The combined amounts of unclaimed prizes for terminal games were \$743,977 and \$614,524 and for the scratch games were \$444,373 and \$343,447 for the fiscal years ended June 30, 2007 and 2006, respectively.

Intangible Assets - Intangible assets consisted of software for the old gaming system. This software was purchased in 1999 and had an original cost of \$1,150,000 and was being amortized over seven years. Amortization was complete as of March 2006.

Furniture and equipment - Furniture and equipment are recorded at cost. Donated furniture and equipment are recorded at their estimated fair market value at the date of donation. Ordinary maintenance and repairs are charged to operations as incurred; major renewals and betterments are capitalized. Upon disposition or retirement of furniture and equipment, the cost and related accumulated depreciation or amortization are removed from the accounts. Gain or loss on disposal is reflected in nonoperating revenues and expenses. Depreciation and amortization are calculated on a straight-line basis over estimated useful lives of three to seven years. The Lottery conforms to the State of Montana capitalization threshold for recording furniture and equipment. This threshold is \$5,000.

Montana State Lottery

NOTES TO THE FINANCIAL STATEMENTS

June 30, 2007 and 2006

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Compensated Absences - State employees earn vacation leave ranging from fifteen to twenty-four days per year based on years of service. Vacation leave may be accumulated to a total not to exceed twice the maximum number of days earned annually. Sick leave accumulates at a rate of twelve days per year with no maximum accumulation. Upon retirement or termination, an employee is paid for 100 percent of unused vacation leave and 25 percent of unused sick leave.

Use of Estimates - The preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE B - CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of the following:

	June 30,	
	2007	2006
Short-term investment pool	\$ 1,583,133	\$2,062,806
Cash on deposit with State Treasurer	245,773	292,098
Cash in revolving deposit account	10,000	10,000
Petty cash	150	150
	<u>\$ 1,839,056</u>	<u>\$2,365,054</u>

The Lottery participates in the Montana Board of Investments Short Term Investment Pool (STIP). STIP balances are highly liquid investments with maturities of 397 days or less. The bank balance of the revolving deposit account was \$19,067 and \$19,221 at June 30, 2007 and 2006, respectively, and was covered by federal depository insurance up to \$100,000. The carrying amounts reported in the Statements of Fund Net Assets for cash and cash equivalents approximate the fair market value.

NOTE C - INVESTMENT RISK DISCLOSURES

Effective June 30, 2005, the State of Montana implemented the provisions of Governmental Account Standards Board (GASB) Statement No. 40, *Deposit and Investment Risk Disclosures*. The Lottery participates in two investment pools: the Multi-State Lottery Association (MUSL) reserve accounts and the State of Montana's Short Term Investment Pool (STIP). There are four types of risk that must be disclosed. These risks are defined below followed by their applicability to each of the investment pools.

Credit risk is defined as the risk that an issuer to an investment will not fulfill its obligation, i.e., not make timely principal and interest payments.

Continued

Montana State Lottery

NOTES TO THE FINANCIAL STATEMENTS

June 30, 2007 and 2006

NOTE C - INVESTMENT RISK DISCLOSURES, continued

Custodial credit risk is the risk that the Lottery would not be able to recover the value of the investment or collateral securities that are in the possession of an outside party in the event of the failure of that party.

Concentration of credit is the risk of loss attributed to the magnitude of a government's investment in a single issuer.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

Multi-State Lottery Association

The MUSL investment policy for prize reserve and unreserved funds states that permitted investments "include direct obligations of the United States government, perfected repurchase agreements, and obligations issued or guaranteed as to payment of principal and interest by agencies or instrumentalities of the United States government, and mutual funds of approved investments". Obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk nor concentration of credit risk per GASB Statement No. 40.

The securities are held in trust for MUSL by Mellon Trust. This large diversified institution has several national offices, with the Everett, Massachusetts office handling the MUSL account. Interest rate risk is minimized by requiring that the average portfolio maturity be no more than 1.33 years and that the maximum maturity for any one security cannot exceed 5 years.

Short-term Investment Pool

All short-term funds are held in the State's Short Term Investment Pool (STIP) administered by the Board of Investments (BOI). A summarized description of their disclosure follows and full details may be obtained by contacting the Montana Board of Investments, 2401 Colonial Drive, P.O. Box 200126, Helena, MT 59620-0126.

For STIP securities, BOI's policy to manage credit risk requires securities have the highest investment grade rating in the short term category by at least one a Nationally Recognized Statistical Rating Organization (NRSRO). The six NRSROs include Standard and Poors, Moody's, Duff and Phelps, Fitch, IBCA and Thompson's Bank Watch.

Per the BOI, all STIP securities are registered in the nominee name for the Montana Board of Investments and held in the possession of the Board's custodial bank. The STIP investment policy does not specifically address concentration of credit risk. As of June 30, 2007 there were no single issuer investments that exceeded 5% of the STIP portfolio. Per GASB Statement No. 40, interest rate disclosures are not required for STIP since STIP is a 2a-7-like pool.

Montana State Lottery

NOTES TO THE FINANCIAL STATEMENTS

June 30, 2007 and 2006

NOTE C - INVESTMENT RISK DISCLOSURES, continued

Under the provisions of state statutes, the BOI has, by a Securities Lending Authorization Agreement, authorized the custodial bank, State Street Bank, to lend BOI's securities to broker-dealers and other entities with a simultaneous agreement to return the collateral for the same securities in the future. During the period the securities are on loan, BOI receives a fee and the bank must initially receive collateral equal to 102% of the market value of the securities on loan and must maintain collateral equal to not less than 100% of the market value of the loaned security. BOI retains all rights of ownership during the loan period. At year-end, the BOI had no credit risk exposure.

NOTE D - ACCOUNTS RECEIVABLE

Accounts receivable consists of the following:

	June 30,	
	2007	2006
Interest receivable	\$ 17,741	\$ -
Accounts receivable	1,553,021	1,032,683
Allowance for returned tickets	(189,008)	(128,403)
	<u>\$ 1,381,754</u>	<u>\$ 904,280</u>

NOTE E - INVENTORY

Inventory consists of the following:

	June 30,	
	2007	2006
Scratch tickets	\$ 1,487,491	\$1,295,163
Supplies	126,884	99,191
	<u>\$ 1,614,375</u>	<u>\$1,394,354</u>

NOTE F - OTHER CURRENT ASSETS

Other current assets consist of the following:

	June 30,	
	2007	2006
Prepaid expenses	\$ 27,213	\$ 25,034
Employee travel advances	-	1,468
	<u>\$ 27,213</u>	<u>\$ 26,502</u>

NOTE G - FURNITURE AND EQUIPMENT

A summary of furniture and equipment for the Lottery is as follows:

	June 30, 2006	Additions	Deletions	June 30, 2007
Furniture, fixtures and equipment	\$ 411,670	\$ 50,114	\$ (40,081)	\$ 421,703
Accumulated depreciation	(286,062)	(31,164)	34,650	(282,576)
	<u>\$ 125,608</u>	<u>\$ 18,950</u>	<u>\$ (5,431)</u>	<u>\$ 139,127</u>

NOTE H - MULTI-STATE LOTTERY ASSOCIATION (MUSL)

Joint Venture Association - In November 1989, the Lottery joined the Multi-State Lottery Association (MUSL). MUSL was created in September 1987 to operate a multi-state lottery game for the benefit of party lotteries. The Powerball game, Wild Card game and Hot Lotto game are presently the only games operated jointly by the members in which the Lottery participates. Each lottery participating in MUSL is represented on the Board of Directors.

Prize Reserve Fund Receivable/Payable - As a member of the MUSL, the Lottery is required to contribute to various prize reserve funds maintained by MUSL. The contributions are to be used to fund unanticipated prize claims. All funds remitted and the related interest earnings will be returned to the Lottery upon leaving the association, less any portion of unanticipated prize claims, which was paid from the fund.

The Lottery contributes to the reserve fund through the set-aside for prizes. Payments made to the reserve fund are considered a portion of the prize expense associated with each game.

During 1990, the MUSL Board created the unreserved accounts to record interest earned on the various prize reserve funds when the prize reserve fund balance is not below the predetermined ceiling amount. The amounts in the unreserved accounts may be used at the Board's discretion.

The long-term receivable balance of \$1,509,968 and \$1,394,278 at June 30, 2007 and 2006, respectively, represents the Lottery's share of the MUSL prize reserve fund that had a balance of \$119,550,256 and \$119,976,521 for 2007 and 2006, respectively. The long-term liability balance of \$1,105,943 and \$1,241,969 at June 30, 2007 and 2006, respectively, represents the Lottery's share of the total estimated prize liability.

Lotto*America Prizes and Investments - Prizes awarded to Lotto*America grand prize winners are paid in twenty annual installments funded by investments in United States Treasury zero coupon bonds. Bonds purchased on behalf of Montana source winners are held in trust by MUSL with the Montana State Lottery as beneficiary. As the bonds mature, the proceeds are forwarded to the Lottery and distributed to the grand prize winners on the anniversary date of each win.

Montana State Lottery

NOTES TO THE FINANCIAL STATEMENTS

June 30, 2007 and 2006

NOTE H - MULTI-STATE LOTTERY ASSOCIATION, continued

At June 30, 2007 and 2006, MUSL held United States Government zero coupon bonds in trust for the Lottery winners with respective par values of \$29,125,949 and \$34,333,949 and respective market values of \$25,227,505 and \$28,920,120.

The Lottery has eight Lotto*America/Powerball/Tri-West winners. The combined total future prize payments owed is \$29,260,000 and \$34,468,000, at June 30, 2007 and 2006, respectively. The present value of future prize payments approximates the current market value of the bonds held in trust for the Lottery winners.

Total annual payments due as of June 30, 2007 are:

2008	\$ 5,208,000
2009	5,208,000
2010	5,106,000
2011	4,603,000
2012	2,155,000
Thereafter	6,980,000
	<u>\$29,260,000</u>

Multi-State Lottery Association Financial Position - Information related to the Multi-State Lottery Association's audited financial statements is as follows:

	June 30,	
	2007	2006
Total assets	<u>\$ 972,391,954</u>	<u>\$1,054,179,556</u>
Total liabilities	\$ 972,194,562	\$1,053,967,990
Total net assets	197,392	211,566
Total liabilities and net assets, unrestricted	<u>\$ 972,391,954</u>	<u>\$1,054,179,556</u>
Total revenues	\$ 14,334,698	\$ 10,780,028
Total expenses	3,049,852	2,708,215
Increase (decrease) in unrestricted net assets	<u>\$ 11,284,846</u>	<u>\$ 8,071,813</u>

NOTE I - ESTIMATED PRIZE LIABILITY

The estimated prize liability represents the Lottery's estimate of prizes payable related to games in process at year-end based on the predetermined prize structure of each outstanding game.

Montana State Lottery

NOTES TO THE FINANCIAL STATEMENTS

June 30, 2007 and 2006

NOTE J - OBLIGATION TO TRANSFER FUNDS

The Lottery is required to transfer its net revenue to the Montana State General Fund. This change was enacted through the passage of SB 83 by the 1995 Legislature and signed into law by Governor Racicot in April 1995. Transfer obligations outstanding at June 30, 2007 and 2006 were \$2,853,513 and \$2,709,470, respectively.

NOTE K - LONG-TERM LIABILITIES

Long-term liabilities consist of the following:

	June 30,			
	Current	Long-Term	2007 Total	2006 Total
Prize liability MUSL	\$ -	\$ 1,105,943	\$ 1,105,943	\$1,241,969
Accrued compensated absences	119,263	62,075	181,338	184,725
	<u>\$ 119,263</u>	<u>\$ 1,168,018</u>	<u>\$ 1,287,281</u>	<u>\$1,426,694</u>

NOTE L - LEASES

The Lottery leases its office, administrative and warehouse facilities under a non-cancelable lease agreement that is effective September 2007 through August 2017. Rent expense under operating leases charged to operations was \$91,511 and \$90,160 for the years ended June 30, 2007 and 2006, respectively.

The to future minimum lease payments under operating leases that have remaining terms in excess of one year as follows:

2008	\$ 116,979
2009	124,937
2010	128,685
2011	132,546
2012	136,522
thereafter	773,066
	<u>\$1,412,735</u>

NOTE M - EMPLOYEE BENEFIT PLANS

Pension Plan - The Lottery participates in the Public Employees Retirement System (PERS). PERS is a statewide mandatory cost-sharing multiple employer retirement plan which covers all employees. The plan is established under State law and is administered by the State of Montana. The plan provides disability and death benefits to plan members and beneficiaries as well as a choice of a defined benefit or a defined contribution retirement plan.

Continued

Montana State Lottery

NOTES TO THE FINANCIAL STATEMENTS

June 30, 2007 and 2006

NOTE M - EMPLOYEE BENEFIT PLANS, continued

The plan issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained from the following address: Public Employees Retirement System, Montana Public Employees Retirement Administration, P.O. Box 200131, 100 N. Park, Suite 220, Helena, MT 59620-0131, (406) 444-3154.

The contribution rate for the plan is required and determined by State law. The contribution rate for fiscal years 2007 and 2006, expressed as a percentage of covered payroll, was 6.9% for both years, for both the employer and the employees. The amounts contributed to the plan during the years ended June 30, 2007 and 2006, were \$166,090 and \$165,494, respectively, and were equal to the required contributions for each year.

Deferred Compensation Plan - The Lottery's full-time regular employees are eligible to participate in the State of Montana's deferred compensation plan. The plan is administered by Benefits Corporation on behalf of Great West Life Insurance Company through a contract with the State of Montana. The amount of compensation deferred is not available to employees until termination, retirement, death, or unforeseen emergency. All amounts are deferred under the plan created under Internal Revenue Code Section 457 and Title 19, chapter 50, Montana Code Annotated (MCA). Assets of the deferred compensation plan are required to be held in trusts, custodial accounts or insurance company contracts for the exclusive benefit of participants and their beneficiaries.

NOTE N - RELATED PARTY TRANSACTIONS

During the ordinary course of business, other State agencies provide certain services and supplies to the Lottery. During 2007 and 2006, total payments to other State agencies were approximately \$174,219 and \$211,589, respectively.

NOTE O - COMMITMENTS, CONTINGENCIES AND SUBSEQUENT EVENT

Scratch Tickets - The Lottery has an agreement with Oberthur Gaming Technologies Corp. to print scratch game tickets. The contract expires August 8, 2008. On May 2, 2007, Scientific Games, Inc. bought Oberthur Gaming Technologies Corp. The Lottery incurs approximately \$1,100,000 per year under this contract.

Terminal Vendor - The Lottery is contracted with Intralot, Inc to provide for the operation of the gaming system through March 30, 2013, the contract provides for three one year extensions, if agreeable by both parties. The contract price is 5.8% of each \$1 ticket sold, which is an estimated total contract price of approximately \$17 million over the seven-year contract. The contract price includes the cost of equipment.

Advertising - The Lottery signed a contract with Banik & Associates to provide advertising services for \$5,500 per month through December 2007.

Continued

Montana State Lottery

NOTES TO THE FINANCIAL STATEMENTS

June 30, 2007 and 2006

NOTE O - COMMITMENTS, CONTINGENCIES AND SUBSEQUENT EVENT, continued

Independent Observation of Drawings - The Lottery is committed to Galusha, Higgins and Galusha, PC, to observe Montana Cash and other special drawings. The original term of the contract was for three years ending June 30, 2005. Compensation did not exceed \$25,000 for the three year period. The contract was renewed for a three year period ending June 30, 2008. Compensation under the new agreement will not exceed \$30,000.

Audit of Financial Statements - The Lottery is party to a contract with Galusha, Higgins and Galusha, PC, an independent accounting firm, to audit the Lottery's annual financial statements. The yearly contract was finalized on June 7, 2007. Compensation for the years ended June 30, 2007 and 2006 will not exceed \$12,000.

Prize Contingencies - Certain Big Spin prizes awarded are payable to the winners in annual installments spanning seventeen to twenty years with the first payment being made by the Lottery. The Lottery has entered into agreements with an insurance carrier under which purchased annuities will provide the required level of payments corresponding to the Lottery's obligation to these prize winners. Because it is the intent of the Lottery that the insurance carrier will make future installment payments directly to each prize winner, neither the present value of the annuities nor the present value of the future payments are reflected in the accompanying financial statements. The Lottery would be liable for such future payments in the gross amount of \$-0- and \$232,500 at June 30, 2007 and 2006, respectively, if the insurance carrier defaulted on their payments.

NOTE P - RISK MANAGEMENT/PUBLIC ENTITY RISK POOL

The Lottery contributes to the Group Employee Comprehensive Medical and Dental Plan and the Property and Casualty Insurance plans of the State of Montana. Details of these plans can be found in the State of Montana Comprehensive Annual Financial Report available through the Department of Administration's website at www.mt.gov/doa/afsd/cafr/cafr.asp.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

To the Commissioners
Montana State Lottery
Helena, Montana

We have audited the financial statements of Montana State Lottery (Lottery), an enterprise fund of the State of Montana, as of and for the year ended June 30, 2007, and have issued our report thereon dated November 9, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Lottery's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Lottery's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Lottery's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

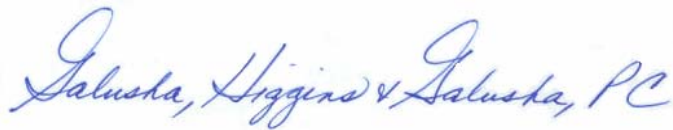

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

To the Commissioners
Montana State Lottery

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Lottery's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information of the Lottery's Commissioners, management, and the Legislative Audit Committee and is not intended to be and should not be used by anyone other than those specified parties.

Montana State Lottery Commission
Helena, Montana

This letter is intended to inform the Montana State Lottery Commission about significant matters related to the conduct of the annual audit so it can appropriately discharge its oversight responsibility and that we comply with our professional responsibilities to the Montana State Lottery Commission.

The following summarizes various matters which must be communicated to you under auditing standards generally accepted in the United States of America and *Government Auditing Standards*.

The Auditor's Responsibility Under Auditing Standards Generally Accepted in the United States of America

Our audit of the financial statements of the Montana State Lottery (the Lottery) for the year ended June 30, 2007 was conducted in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error, fraudulent financial reporting or misappropriation of assets. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Accordingly, the audit was designed to obtain reasonable, rather than absolute, assurance about the financial statements. We believe that our audit accomplished that objective.

In accordance with *Government Auditing Standards*, we have also performed tests of controls over internal control over financial reporting and tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements that contribute to the evidence supporting our opinion on the financial statements. However, they do not provide a basis for opining on the Lottery's internal control over financial reporting or on compliance and other matters.

Management Judgments and Accounting Estimates

Accounting estimates are an integral part of the preparation of financial statements and are based upon management's current judgment. The process used by management encompasses their knowledge and experience about past and current events and certain assumptions about future events. Management has informed us they used all the relevant facts available to them at the time to make the best judgments about accounting estimates and we considered this information in the scope of our audit. Estimates significant to the financial statements include the allowance for returned tickets of \$189,008. The Commission may wish to monitor throughout the year the process used to compute and record these accounting estimates.

RSM McGladrey Network
An Independently Owned Member

Billings • Bozeman • Havre • Helena • Missoula • Idaho Falls

Audit Adjustments

There were no audit adjustments made to the original trial balance presented to us to begin our audit.

Uncorrected Misstatements

We accumulated no uncorrected misstatements (passed adjustments).

Accounting Policies and Alternative Treatments

Management and the Commission have the ultimate responsibility for the appropriateness of the accounting policies used by the Montana State Lottery. The Lottery did not adopt any significant new accounting policies nor have there been any changes in existing significant accounting policies during the current period which should be brought to your attention for approval.

We did not identify any significant or unusual transactions or significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Disagreements with Management

We encountered no disagreements with management over the application of significant accounting principles, the basis for management's judgments on any significant matters, the scope of the audit or significant disclosures to be included in the financial statements.

Consultation with Other Accountants

We are not aware of any consultations management had with other accountants about accounting or auditing matters.

Major Issues Discussed with Management Prior to Retention

No major issues were discussed with management prior to our retention to perform the aforementioned audit.

Difficulties Encountered in Performing the Audit

We did not encounter any difficulties in dealing with management relating to the performance of the audit.

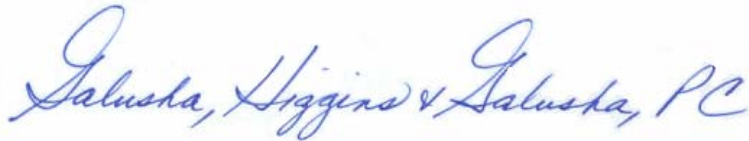

Closing

We will be pleased to respond to any questions you have about the foregoing. We appreciate the opportunity to continue to be of service to the Montana State Lottery.

* * * * *

This report is intended solely for the information and use of the Commission Members, Directors and management and is not intended to be and should not be used by anyone other than the specified parties.

Very truly yours,
